Large numbers of the profession and special staffs have voluntered and gone to the front. Employees of all kinds have been drafted or have left for other activities," thus causing a depletion of hospital workers which has brought about a serious situation, impairing in many institutions both the quality and quantity of hospital and dispensary service.

The present conditions have been brought to the attention of Government authorities, the report continues, with the hope that "such exemption for necessary workers of all grades will be granted as will permit the hospitals to insaltain full service."

For the year ended September 30 last the receipts of the fund were \$181,504.08, or a gain over the preceding year of \$47,924.60.

"Notwithstanding this increase," concludes the report, "the rising costs of all kinds of medical and surgical supplies and of labor has been even greater. WHY RUN-DOWN PALE EXHAUSTED WOMEN SHOULD TAKE IRON

"There can be no beautiful, healthy, rosy-cheeked, a teady nerved women without iron. When the iron goes from the blood of women, the roses go from their cheeks—their charm and attractiveness depart. I always insist that my patients take organic iron—Nusated Iron—(not metallic iron which often corrodes the stomach and does more harm than good). Nusated Iron is easily assimilated, does not blacken nor injure the teeth nor upset the atomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard women in two weeks time in many cases. I have used it in my own practice with most surprising results."—Ferdinand King, M.D., well known New York Physician and medical author.
